

KLOVE is the radio station I listen to and so does the rest of my family. It would be a great loss to those of us in the rogue valley since we do not have a large variety of choices for this type of programming. It is a service that my children and those of us in this area can listen to 24 hrs a day and not worry about profanity or improper subject matter that seems to be so ramped in other broadcasting formats. Please consider all those who benefit from the information enjoyment that we receive from this service.
